

RIDING

Examples:

- ♥ Beginner to advanced
- ♥ Indoor or outdoor arena
- ♥ Seat aids & communication
- ♥ Gymnastics
- ♥ Bio-mechanics
- ♥ Trail riding safety
- ♥ Young horse preparation
- ♥ Neckrope or freedom riding
- ♥ Bareback or bareback pad riding
- ♥ Balance & core training skills
- ♥ Confidence and maintenance
- ♥ Walk to Piaffe

Whatever your goal or ambition I can contribute to your wishes.

I search always for kind and alternative training tools and learn constantly how to translate that to my horse and rider combinations.

If you wish to use a snaffle bit, great, let's get good at that.

If are currently using harsher bits and ties downs and do not want to anymore, great let me teach you how do that.

Of course I also support bitless bridles but there are so many to choose from nowadays and not all are suited to all horses, I will help you find the right one.

Basically whilst riding you can learn how to give yourself and your horse a better deal by knowing how to teach and maintain excellent basics.

Basics usually get skipped because it is easier or the person just did not know how to teach them.

Although your end goal might not be training young horses; by understanding the process you can take them through and from quite a young age on the ground first to help them become excellent partners is only beneficial to your armour of knowledge.

Lastly you may not aspire to remove the reins completely but learning how to ride on a Neckrope only improves your seat aids and communication.

If you are already training in this way of riding, you will learn how to shape your horses body better and most importantly never teach the horse to lean on the Neckrope.
